GIS-CH ELECTRIC CHAIN HOIST: SIMPLE, RELIABLE, SECURE.

R Lifting and Crane Technology Faith in technology. Faith in GIS.

C

GIS – YOUR GENERAL CONTRACTING PARTNER FOR EFFICIENT MATERIAL FLOW.

- Complete range of market services for off-floor goods handling
- A wealth of know-how from planning through to installation
 - We manufacture quality products «Made in Switzerland»
 - Our approach is based on reliability and service

More features of the GIS company:

- Guaranteed innovation because we have our own development department
- Certified quality (ISO 9001)
- Our worldwide network of dealers keeps us extremely close to the market

... and a thousand and one applications!

Your benefits:

- solutions that match your particular situation
- maximum flexibility another benefit of the wide GIS range
- cost-effective, reliable goods handling
- business relationships based on partnership

AN OVERVIEW OF GIS PRODUCTS

Lifting technology

GIS electric chain hoists (up to 5000 kg)

- low wear, reliable, easy to maintain
- application: stationary, movable on I-beams or combined with GIS crane system

Crane technology

GISKB crane system (up to 1250 kg)

- modular concept
- single and double bridge suspended crane for all-round goods transportation
- monorail with bends and switches for linebound transportation
- lightweight design

GIS travelling cranes (up to 5000 kg)

- designed to customer specifications
- conventional design
- especially suitable for larger spans

GIS slewing pillar and wall cranes (up to 1000 kg)

- for use when ceilings have insufficient load-bearing capacity
- an ideal addition to your suspended crane
- quick to plan, simple, easy to handle

Vacuum lifting technology

Gentle lifting with GIS vacuum equipment (up to 500 kg)

- for all types of surfaces and a huge variety of products
- can be combined with electric chain hoists/wire rope hoists

Your benefits:

- perfected quality products
- tested and proven thousands of times over
- simple design and installation
- at any time extendable

GIS-CH ELECTRIC CHAIN HOIST FROM 40 TO 5000 KG

- COMPACT DESIGN
- ROBUST CONSTRUCTION
- EASE OF MAINTENANCE
- AVAILABILITY ASSURED
- ADVANCED TECHNOLOGY
- SWISS QUALITY
- LIFTING CAPACITY UNTIL 5000 KG
- PROTECTION CLASS IP 55 (OPTION IP 65)

WORLD'S FIRST IN SAFETY

- Double slip clutch (best overload protection ever). Authority's safety test passed superbly! Five times more secure than the regulations require!
- Highest safety with brake positioned after the slip clutch
- End of chain is fixed to the hoist body
- Standard geared limit switch: chain length up to 120 m
- Made for industrial use: body and covers completely built in aluminum
- Jamming of the chain excluded due to two part plastic chain guide

WORLD'S FIRST IN SERVICE AND HANDLING

- Easy adjustment of the slipping clutch
- No special tools or electronic devices required
- Disc brake system maintenance free
- Chain guide removable without disassembly of the hoist
- Easy conversion from 1 to 2 fall (double load capacity)
- Ergonomic 2 and 4 button control pendant with support wire
- Silent working due to helical gears
- Standard low voltage control (42 V)

* FEM classification: switches per hour on control pendant

1Bm (M3) = 150 switches per hour, 25% duty 1Am (M4) = 180 switches per hour, 30% duty 2m (M5) = 240 switches per hour, 40% duty 3m (M6) = 300 switches per hour, 50% duty 4m (M7) = 360 switches per hour, 60% duty

Brake

- Maximum safety (construction: brake after slipping clutch)
- New advanced brake design
- Unique availability
- Maintenance free

Chain wheel

- Made of hardened steel
- With additional chain pockets (4mm): hence quiet running and improved running properties
- With double bearing construction

Geared limit switch (standard)

- Simple adjustment
- Exact positioning
- Lifting heights up to 120 m
- Accuracy for repetition assured

Transmission

operation

Helical-toothed gear steps for quiet running
Permanent lubrication for wear resistant

Contactor control system

- Simple technology (no electronics susceptible to interference)
- Reliable technique
- Emergency stop as a standard
- 42V control system allowing highest safety of operation

Hoisting chain

- Calibrated especially for GIS
- Zinc plated
- Surface-hardened
- Quality class DAT (8SS) to FEM 9.671

Chain guidance

- 2-part construction to optimize maintenance
- Reinforced plastic material highly wear resistant
- Safe operation jamming excluded

Slipping clutch

- Simple and precise adjustment
- Maintenance free and highly resistant to wear
- Ease of servicing thanks to comfortable access

Control switch

- With built-in support wire as a standard
- 2-buttons: design especially ergonomic
- Emergency stop as a standard
- Protection: IP65 to DIN 40050
- Optional: with integrated working hours counter

Motor

- Design for tough working conditions
- Normal, fast and super fast speed models available
- With single or dual speed
- Option: with temperature control system
- Option: with insulation for the tropics
- Special voltages available
- 1-phase models as a standard

Housing

- Cast aluminium housing with maximum solidity (no plastic material)
- For extreme working conditions: casted cooling gills
- Easy transformation from 1- fall to 2-falls operation: no need of dismantling

CREATION OF ADDED VALUE WITH PROFESSIONAL MATERIAL HANDLING

Low headroom with GIS-CH electric chain hoist

- Solution for especially low rooms for working areas in all kind of industries
- Reduced headroom over clever hoist alignment and chain guidance
- Hook position individually adjustable by geared limit switch
- Step less speed control with frequency inverter available (optional)
- Hook distance variable by modular lengthening device
- Designed for use with the complete GIS range

60

Load capacity until 3200 kg

Synchronic lifting technology with GIS-CH electric chain hoist

- Solution for optimized handling of exceptional length and bulky loads
- Precise parallel run of two or four load hooks guaranteed
- Load capacity with 2 hooks, 2 x 1250 kg or with 4 hooks, 4 x 1250 kg
- Hook position (height) individually adjustable by geared limit switch
- Step less speed control with frequency inverter available (optional)
- Hook distance following needs and further on adjustable
- Modular development for use in low rooms
- Practicable in fully automatic installations with external controls
- Designed for use with the complete GIS range

REALIZE YOUR WISHES BY DIRECT HANDCONTROLS

Flexible hand guide control «Chain Handy» with GIS-CH electric chain hoist

- Product positioning through toggle switch in comfortable and efficient way
- Allows a fast and reliable movement of different goods
- Standard left and right hand operation
- Safe lifting until 250 kg capacity
- Step less speed control with frequency inverter available (optional)
- Designed for use with the complete GIS range

High precise rigid hand guide control «Telescopic Handy» with GIS-*CH* electric chain hoist

- Exact and accurate positioning through toggle switch and rigid telescopic guide system
- Allows the controlled and perfected handling of different (incl. liquids) transport goods
- Standard left and right hand operation
- Safe lifting until 250 kg capacity
- Step less speed control with frequency inverter available (optional)
- Designed for use with the complete GIS range

ELECTRIC CHAIN HOIST - FOR THE ENTERTAINMENT INDUSTRY

Climbing and lifting with GIS-CH electric chain hoist

- Individually available with direct or standard control
- Prepared for externally powered controls
- Available with standard geared limit switch
- Available with second break and load control system
- Fulfills requirements of BGV-D8, BVG-D8 Plus and BGV-C1

ECONOMIC EXPLOSION PROOVED SOLUTION

ATEX conformity with GIS-CH electric chain hoist

- Solution with existent industrial resources (air pressure 4 bar)
- The entry of gas is avoided through an overpressure in the housing
- Maximum safety guaranteed: At a lost of pressure in the housing the power will be cut immediately (electrically connected over the emergency stop)

Dust execution Ex II 3D IP T130°C

- Equipment group II
- Equipment category 3
- Zone 22 (D)
- Temperature class = less 130° motor with Klixon

Gas execution

- Ex II 3G EEx II nZ T3 and Ex II 3D IP T130°C
- Equipment group II
- Equipment category 3
- Zone 2 (G) 22 (D)
- Temperature class = T3 motor with Klixon
- With overpressure surveillance

IN HARD AMBIENT CONDITIONSWE FEEL GOOD.

Specific research guarantees corrosion resistance with GIS-CH electric chain hoist

- Specially for applications in aggressive atmospheres (tested in defined acids and lye's and other specific liquids and substances)
- All contact affected parts manufactured in corrosion resistant material (chain, equipment material, hook and screws)
- High reliability with standard IP 65 protection class
- Designed for use with the complete GIS range
- Lifting capacity till 1000 kg
